What is a Chamber of Commerce?

The Clay County Chamber of Commerce is:

- A voluntary, non-profit organization, 501 (c) 6, that unites the business and professionals in an effort to expand the economy of the area.
- Businesspeople actively engaged in improving the business community.

A Chamber's strength lies in the number and diversity of its members. Both large and small businesses from virtually every profession are represented and influence investments in the community. Additionally, the Chamber is working hard with the local high school to establish intern and apprenticeship programs with our students. The more members Clay County Chamber of Commerce has, the better it can represent the business community. It accomplishes collectively what no business can do alone.

The Clay County Chamber of commerce is not:

- A department of the city, county, or state government.
- A political body, civic club, or professional society.
- A social service, welfare, or charitable institution.
- A private advertising, publicity, or public relations agency.
